## 123 FARM

123 Farm is the name of Highland Springs Ranch & Inn's organic farm. We are known for being Southern California's largest certified organic lavender farm, but also raise sheep, heirloom chickens and other herbs and vegetables. We use our lamb meat in the restaurant, as well as the chicken eggs, which are collected fresh daily. Our heirloom chickens give a variety of colored eggs including green and pink eggs! We plan to experiment making cheese with our dairy cow and we also raise llama and several pigs. We thank you for dining here, which helps support our organic farm.

## LOCAL FARMS

*We also support the following local farms:*

ADAM'S ACRE FARM

JACOBS WELL FARM

JONES GIRL FARM
